

## Tilvísanir og helstu greinar aðrar, ásamt fáeinum athugasemdum:

Bjerknes, J.: 1964, Atlantic air-sea interaction, *Adv. Geophys.* **10**, 1–82.

[Fjallar um breiddarbundinn þrýstimun yfir Atlantshafi, vestanvísi (zonal index)],

Exner, F.M.: 1924, Monatliche Luftdruck- und Temperaturanomalien auf der Erde, *Sitzungsbericht ed.*

*Kaiserl. Akad. der Wissenschaften* **133**, 307–408.

[Samtíma greinum Walkers].

Feldstein, S.B. (2003). The dynamics of NAO teleconnection pattern growth and decay. *The Quarterly Journal of the Royal Meteorological Society* **129** Issue 589, 901 – 924.

[Nokkuð tæknileg grein, fjallar um hugsanlegar orsakir NAO].

Hanna, E., J. Cappelen, R. Allan, T. Jónsson, F. Le Blancq, T. Lillington and K. Hickey, (2008): New Insights into North European and North Atlantic Surface Pressure Variability, Storminess, and Related Climatic Change since 1830. *J. Climate* **21**, pp. 6739–6766. DOI:

10.1175/2008JCLI2296.1

[Fjallar um dp-vísa og breytileika þeirra í V-Evrópu og á Grænlandi, fánleg í gegnum landsaðgang].

Hildebrandsson, H.H.: 1897, Quelques recherches sur les centres d'action de l'atmosphère', *Kongl. Svenska Vetenskaps-akad. Handl.* **29**, Fasc. 3.

[Hér var fyrirbrigðisins fyrst getið]

Hurrell, J.W., 1995: Decadal trends in the North Atlantic Oscillation and relationships to regional temperature and precipitation. *Science* **269**, 676—679.

[Algengasti nao-vísirinn]

Hurrell, J.W., Y. Kushnir, G. Ottersen, and M. Visbeck, ritstj., 2003 The North Atlantic Oscillation: Climate Significance and Environmental Impact, *Geophysical Monograph Series*, **134** 279pp.

[Stærsta samsafn upplýsinga um nao, yfirlitskaflinn er ókeypis í rafrænu formi á:

<http://www.cgd.ucar.edu/cas/jhurrell/Docs/naobook.ch1.pdf>].

Jones, P.D., T. Jónsson, and D. Wheeler, (1997). Extension to the North Atlantic Oscillation using early instrumental pressure observations from Gibraltar and South-West Iceland, *International J. of Climatology* Vol. **17**, 1433-1450.

[Nær yfir lengra tímabil en vísir Hurrell, sumarið síðra?].

Jónsson, T. and E. Hanna (2007) A new day-to-day pressure variability index as a proxy of Icelandic storminess and complement to the North Atlantic Oscillation index 1823–2005.

*Meteorologische Zeitschrift*, Vol. **16**, No. 1, 025-036 (February 2007).

[Skilgreinir dp-vísinn og kannar breytileika hans frá upphafi þrýstimælinga hér á landi].

Luterbacher, J., Xoplaki, E., Dietrich, D., Jones, P.D., Davies, T.D., Portis, D., Gonzalez-Rouco, J.F., von Storch, H., Gyalistras, D., Casty, C., and Wanner, H., 2002. Extending North Atlantic Oscillation Reconstructions Back to 1500. *Atmos. Sci. Lett.*, **2**, 114-124 (doi:10.1006/asle.2001.0044).

[Teyging á NAO aftur til ársins 1500, mikið notað, en ekki endilega rétt].

Rogers, J.C.: 1984, The association between the North Atlantic Oscillation and the Southern Oscillation in the Northern Hemisphere, *Mon. Wea. Rev.* **112**, 1999–2015.  
[Stefnumarkandi grein um nao og nao vísi, fáanleg í gegnum landsaðgang].

Walker, G.T.: 1923, Correlation in seasonal variation of weather, VIII, a preliminary study of world weather, *Mem. Ind. Met. Dept.* **24**, 75–131.  
[Iceland-Azores Oscillation].

Walker, G.T.: 1924, Correlation in seasonal variation of weather, IX, *Mem. Ind. Met. Dept.* **25**, 275–332. [Hér var nafnið NAO fyrst notað]

Wanner, H., S. Brönnimann, C. Casty, Gyalistras, D., J. Luterbacher, C. Schmutz, D. B. Stephenson, and E. Xoplaki, 2001: North Atlantic Oscillation - Concepts and Studies. *Surveys in Geophysics*, 22 (4): 321-381.  
[Mjög greinargóð lýsing á nao-fyrirbrigðinu og og hugmyndum manna um það, fáanleg í gegnum landsaðgang].
